### Testimonial - Marilyn Smyth

Marilyn has worked with our council on a number of occasions now – she is exemplary in terms of her conduct, work and professionalism. She somehow has the ability to “get” what you need very quickly, she doesn’t dance around discussions or pitch for extra work because she doesn’t need it. She is authentic, astute and awesome at translating what you need into something that’s right for your organisation .....I call it her magic sprinkles effect!

Word of caution though, don’t secure her services if you want a pedestrian consultant who tells you what you want to hear.... She is passionate about her work, her expertise, technical competence and network is far reaching and as a result of that you get top class outputs.

Someone in our business recently said to me “you would absolutely want her in your corner in any formal proceedings” to which I fully concur. She knows her onions and I wouldn’t hesitate to recommend Marilyn to any of my professional network.
