To whom it may concern,

The Garden (the “School”) recently retained the services of Marilyn Smyth of Making A Difference to conduct a complex investigation on its behalf.

The investigation had a large scope and the nature of the allegations being made were not initially clear. Marilyn worked diligently to clarify the allegations and then undertook a wide-ranging investigation, which required a large amount of interviews with witnesses. She undertook this work efficiently, with a high degree of sensitivity.

Marilyn’s report was extremely clear and demonstrated the thoroughness with which she conducted the investigation. I would not hesitate to recommend Marilyn’s services to other Chairs of Governors.

Yours faithfully,

David Lowry
Chair of Governors

THE GARDEN
